President Davis Advises Dairymen

Is Not in Favor of Consolidation With Other Agricultural
Societies—Reports of Other Officers.The 31st annual convention of the
Connecticut Dairymen's association
opened a two days' session at Hart-
ford Wednesday forenoon. Exhibits of
dairy machinery and appliances were
made in the lower hall and were in-
teresting to the milk and butter pro-
ducers.The programme embraced the annual
reports and interesting addresses on
dairy topics.The meeting was called to order by
President G. Warren Davis of Nor-
wich, who presented Mayor Edward
L. Smith of Hartford, who, as Presi-
dent Davis said, had a year ago turned
over the keys of the city to the dairy-
men.Vice President F. E. Duffy of West
Hartford responded to the mayor's
welcome, and expressed the appre-
ciation of the dairymen of the mayor's
expression of good feeling.The annual address of the president
was then given.

President's Address.

In beginning his remarks President
G. Warren Davis of Norwich said that
the programme provided for an annual
address by the president, but he
scarcely wished to call his talk an
annual address. He said at the out-
set that the year was a disastrous one
for successful dairymen in the state,
according to reports, and there must
be some particular reason for it. He
referred to the mid-summer drought,
and briefly surveyed the industry in
the state of Connecticut.He said that three other states are
clamoring for our product, Rhode
Island, Massachusetts and New York,
and in spite of that and the enormous
consumption of dairy products in our
state, still there are people in the
state who say dairymen are not a pay-
ing business.Why is it not? asked President
Davis. "Is there anything the mat-
ter? Any wrong conception in the
minds of the operators of the busi-
ness in Connecticut? Surely there
must be and there must be something
either the matter with the man or the
farm."

Contrast in Production.

At this juncture Mr. Davis called
attention to an exhibit on the stage
showing the difference in production
from cows. On one side of the
stage was shown the average daily
production of the Connecticut cow,
and on the other side was shown the
production of a cow from Rhode Is-
land. The daily ration for the
average cow was bulletined
Hay, 16 lbs. at \$20 ton \$32

NORWICH TOWN

Many Mourning Friends Pay Tribute
to Alonzo M. Luther—Meeting of
Missionary Association—Frodia Trip
—Social Items.Funeral services for Alonzo Martin
Luther were held at 2 o'clock Wednes-
day afternoon at his home on Town
street. His former pastor, Rev. C.
A. Northrop, and the present pastor,
Rev. H. Ewing, conducted the im-
pressive service. After reading the
Scripture, Rev. Mr. Northrop said:There is not one of us but would
have been glad to have lived his life.
He lived in two circles, one in Nor-
wich, and one over there in Hartford,
where he stood for God as he did
here, with earnest faithfulness. A
life like that is worth living and
leaves a stainless record. He knew
affliction from God. He leaves behind
friends who dearly love him, and goes
to those who love him, too. God may
have provided some better thing for
him and for these dear children.May not there be some one among
his associates who may follow in his
footsteps? I could not say. But he
he would not want me to say this.
Rev. G. H. Ewing said: Mr. Luther
was a filial son, a devoted father, a
loyal brother, a friend to all, a faith-
ful worshipper in the church. He was
diligent in business, fervent in de-
votion, and he served the Lord. How
intensely large for him the new opportu-
nities!The service closed with prayer by
Rev. Mr. Ewing.Among the many beautiful flowers
were wreaths a cross, a crescent and
a form of galax, roses, lilies and car-
nations from Hartford lodge of Ma-
sons, A. F. and A. M. There were many
large clusters of choice carnations.Burial was in Yantic cemetery,
where a committal service was read
at the grave. D. W. Avery, G. F. Hyde,
C. G. Pierce and H. T. Frazier were
the bearers. Many relatives and friends
were present. Among those from
out of town were Mr. and Mrs. Charles
Luther of Brooklyn, N. Y., John E.
Luther of New Brunswick, Can.; Mrs.
Clara Gorton of Montclair, N. J.; A.
P. Lathrop of New York; E. A. Smith
of New London; Mrs. Holland Lam-
phere of Hartford; Joseph M. Merrow,
president of the Merrow Machine Co.,
Hartford. Funeral Director C. A. Ga-
ger, Jr., had charge of the arrange-
ments.

\$30 from Supper for New Hall.

A pleasant gathering was held on
Tuesday evening at the home of Mr.
and Mrs. A. E. Geer on the Scotland
road, when an oyster supper was given,
the proceeds of which will be ap-
plied to the fund for the new hall be-
ing erected. Over sixty were pres-
ent, sleighing parties coming from
Baltic and Laurel Hill, Norwich; a
party from Occum, and a number
taking a straw ride from Norwich
Town. The matching of aprons
and ties, seats were found at the sup-
per tables where hot oysters, coffee
and cake were served by Mrs. Geer,
assisted by Mrs. Louis Olsen, Mrs.
Irving Bushnell and Miss Grant.
Those serving at the tables were Miss-
es Emily and Susie Wilcox, Beattie Lil-
libridge and Beattie Bushnell, also
Frank Durr. After the supper, games
and music were enjoyed. A guess cake
was won by Mrs. Olsen. The sum of
\$38 was realized.

On Trip to Florida.

Fred D. Vergason of Sylvia lane is
taking a three weeks' trip in Florida.
Wednesday and today (Thursday) he
is in Key West and Tampa. Before
returning he will see Mr. and Mrs.

dent, Miss Susan C. Hyde, was in
charge and after a devotional service
another chapter in the mission study
book on India was taken up.

Ice Cutting Begins.

Avery Brothers were cutting ice

nesday.F. S. Wheeler of the Scotland road

ings of the State Dairymen's
association, held in Unity hall.F. W. Prodel and Cornelius Beeth-
am were in Occum on a fishing trip
week and were fortunate in se-
curing a basket of 12 perch taken
from Dark Cove in the Shetucket riv-
er.Corn meal, 4 lbs. at \$20 ton \$9
Bran, 3 lbs. at \$20 \$3
Water, 75 lbs. 22In great contrast to this exhibit was
one day's production from one Con-
necticut cow not yet three years old,
whose product for one certain day
was 44 quarts of milk or 21 pounds
of butter. This splendid animal's av-
erage daily output for one year was
15 quarts of milk, 8 pounds of but-
ter. The daily rations for this Con-
necticut cow were not so much more
expensive than the other, and were
given as follows:

Slack, 40 lbs. at \$5 ton	\$10
Hay, 10 lbs. at \$20 ton	19
Mixed grain, 10 lbs. at \$30 ton	15
Water, 100 lbs.	35

Grow Clover.

Telling of a 200 mile trip through
Connecticut, President Davis said he
saw out five clover patches in his tour.
"Let every dairyman grow clover," said
the speaker, and he advocated the
growing of alfalfa, saying that he
thought most of them could do it.

Only Four Kinds of Cows.

"We should never have more than
four kinds of cows in the state, as it
should be made a crime to have them
mingle in blood," said Mr. Davis. He
was in favor of having a dairy coun-
seller and dairy testing association, and
advised his hearers to elevate dairymen
in the state of Connecticut.

The Cattle Law.

He said that last summer at the
state capitol occurred the enactment
of the law so that every cow that
comes into 1912 state must have a
clean bill of health. Before that Con-
necticut had been regarded an easy
place for unclean cattle to come. They
brought trouble to most of the dairy-
men and the results of that importa-
tion will be felt for some time. The
average efficiency of an imported cow
is only about two years, and think of
paying \$75 to \$100 for a cow whose
efficiency would be over in that length
of time, said Mr. Davis.

The \$1,000 Cow.

Professor Cooley of Amherst had
talked of the \$100 cow a few years ago
—when corn meal was \$12 a ton. Now
the dairymen are talking of the \$1,000
cow, and she is going to be worth the
money, President Davis thinks.

Against Amalgamation.

In closing, President Davis said he
had unhappy words to utter. He said
that there is a strong current being
felt for the amalgamation of the agri-
cultural societies of Connecticut, but
the board of managers of the Dairy-
men's association do not feel that the
merger should be accomplished, and
that the dairymen are an association
organized for a specific purpose with-
out entangling administration by any
other society.

total of 5,577 feet of road has been
constructed at a total cost of \$46-

by state town and county were as fol-
lows: \$31,288.32 by state, \$13,038.37 by

there has been constructed 24,438 linear
feet of macadam road, 1,506.5 feet of
